PROFILE

Dynamic Computer Applications graduate with a remarkable academic record of **70.1%**, showcasing a robust expertise in programming. Proven ability to gather **practical development knowledge** through hands-on, **real-time projects**. Eager to embark on a Development career.

EDUCATION

Master of Computer Applications, March 2023
VHN Senthikumara Nadar College,
Virudhunagar, TamilNadu.

B.Sc., Mathematics, April 2020
Syed Hameedha arts and science college,
Ramanathapuram, TamilNadu.

SKILLS

- **Front End** - HTML | CSS | JavaScript | ReactJS TailwindCSS | Bootstrap
- **Database** - MySQL | MongoDB
- **Back End** - Django | Python | NodeJS | Express TRPC
- **Developer Tools** - Git | Postman | VS Code

PROJECTS

SumAI | AI Summarizer   November 2023
Tech Stack - ReactJS | CSS | Tailwind CSS   Live Demo

- Designed a **user-friendly interface** for effortless interaction, enabling users to input **article URLs** and obtain concise summaries with a single click.
- Utilized **Rapid API** integration to enhance the summarizer's functionality, providing users with seamless access to a powerful summarization tool.
- Simplified the process of **extracting valuable insights** from lengthy texts, catering to both students and professionals seeking efficient information retrieval.

ForeCastify | Weather App   October 2023
Tech Stack - ReactJS | HTML | CSS   Live Demo

- Enabled **seamless search functionality**, allowing users to explore **weather conditions** in various cities, fostering greater accessibility and ease of use.
- Enhanced **user interaction** and engagement by implementing **responsive design** elements, ensuring a seamless experience across multiple devices.
- Utilized innovative **UI components** and **animations** to render weather updates in a visually appealing manner, enhancing user engagement.

SkyKart | E-Commerce platform   July-August 2023
Tech Stack - Python | Django | Bootstrap   GitHub Repository

- Devoted 40 days to successfully finalize the e-commerce project, seamlessly integrating **Razorpay** for **secure online transactions**.
- Leveraged the Django framework, enhancing administrative efficiency with a user-friendly admin panel.
- Attained expertise in **Django** development, including **URL** handling, **view** functions, and CSS for styling.

CERTIFICATIONS

- Front End Development Libraries - **freeCodeCamp** | October 2023.
- FSD 101 - **GUVI** | October 2023.
- ChatGPT for Everyone - **GUVI** | October 2023.
- JavaScript - **Scaler Topics** | October 2023.
- CSS - **Great Learning** | October 2023.
- Python and SQL - **Scaler Topics** | July 2023.
- Python - **Great Learning** | August 2022.

STRENGTH

- Self Learner | Result Oriented

HOBBIES
